

Golf Ontario would like to introduce you to our schedule of Handicap Certification Seminars for the 2021 season. Golf Canada requires member based clubs to certify at least one Handicap Official, and have a Handicap Committee in place at their club to manage the Handicap Indexes issued to each member. We are hosting several Handicap Certification seminars this season in order to continue our education drive and to help member clubs, members, and anyone else interested achieve certification. These seminars are a more in-depth look into Handicapping and Course Rating and will give attendees a thorough knowledge of the subjects.

The Handicap Seminar is beneficial for Club Members, Handicap Committee Members, Golf Professionals, Superintendents, General Managers, and any golf minded individual interested in learning more about Handicapping/Course Rating in general. These seminars last for 2 hours, and include a digital copy of the Rules of Handicapping. The registration fee is \$35 (plus HST) which will cover administrative and course materials distributed. The seminars are listed on the attached registration form with dates/times. Extra copies of the registration form and additional information is available on the Golf Ontario website under "Support the Game" > Seminars & Workshops > Handicap Certification Seminars, or directly; <https://gao.ca/golfer-resources/about-handicapping/handicap-certificationtraining>

Please help us promote these seminars to your membership. The more we all learn about the game as a collective, the better the game will be long term. You may post this information on your bulletin boards and/or pass this information on to all members who you think would be interested in attending, or in one of your upcoming newsletters.

To attend one of these Handicap seminars, please complete the online registration form here: <https://app.smartsheet.com/b/form/8bbe5595b0c94129a7a6f11942db518a>
